Reviewed and Tested by Girls in Many Communities

Daughters of Tradition II (DOT II) has undergone an extensive review process in which community leaders, girls, and parents of many different communities around the country have examined the curriculum, tested out the curriculum, and have provided feedback to enhance and improve it. It is culturally relevant and age-appropriate.

DOT II is a natural follow-up program to the Daughters of Tradition prevention education program designed for Indigenous girls ages 13-17.

This is a year-long educational program designed for Indigenous teenage girls.

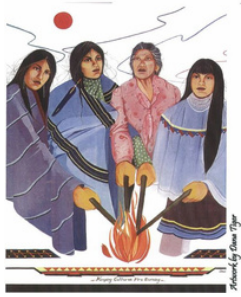

It is patterned to correspond to the nine month school year and includes a three month supplement that can be used over the summer months.

An essential aspect of the program is that girls will learn to understand and apply spiritual values to their lives in order to develop healthy lifestyles, strong characters, a sense of what it means to be a young Indigenous woman, and how to create a sense of harmony in their lives.

The program is facilitated by a caring adult and incorporates the wisdom and expertise of local community members, grandparents, and Elders.

It can be delivered in schools, churches, boys and girls clubs.
